

In the Governor's proposed budget:

- The criminals in Kentucky are guaranteed 3 meals a day while 19,000 Kentuckians are on waiting lists for services from the Department of Aging and Independent Living.
- The Kentucky Horse Park was exempted from cuts – as it has in the past.
- Apparently it's more important for the horses and the criminals to avoid cuts than disabled and elderly Kentuckians.

Today, too many Kentuckians are waiting for basic, lifeline services to help them live in their own homes.

- 19,000 Kentuckians are on waiting lists for home and community based services from the Department of Aging and Independent Living.
- We need help to stay in our own homes and avoid going to the **much more costly nursing homes**.
- 9,000 Kentuckians are waiting for meals while criminals get three meals a day!
- Many more are waiting in need of Personal Attendant Care and homecare services.
- Years of state budget cuts and underfunding services with home & community based services must end.
- Home and Community Based Services improve the quality of life **and save taxpayer dollars**.

We can't wait any longer.

What You Can Do: Call Frankfort toll-free 1-800 -372-7181

Tell you Representative & Senator as well as Greg Stumbo & David Williams:

“Don't balance the state budget on the backs of disabled elderly Kentuckians! Don't cut lifeline services like Personal Care Attendant Program, homecare and meals!”
